### Welcome to Stockholm – The Capital of Scandinavia.

There are many reasons why Stockholm is the natural Capital of Scandinavia. One is that Stockholm is positioned at the heart of the region, and enjoys the benefits of a world-class transport infrastructure. Arlanda airport is less than 20 minutes away from the city by express train. Stockholm is also the largest city in the largest country in Scandinavia.

It is also where you find the most Multi-national companies, the largest stock market and, not least, the most visitors. People come to Stockholm for the excellent food, the design and the music. Stockholm also offers a unique range of galleries and museums, and every year the eyes of the world are on Stockholm when the Nobel Prizes are awarded in December. Another large event is the annual World Water Week which take place in August. **The Stockholm Water Prize is the world's most prestigious prize for outstanding achievement in water-related activities.** H.M. King Carl XVI Gustaf of Sweden is the Patron of the Stockholm Water Prize

The development and history of Stockholm is long and exciting. Stockholm's first settlement was built on Stadsholmen in the 11th century, where "Gamla stan" (the Old Town) currently stands. The Grand Hotel is just opposite the Old Town. Visitors to Stockholm are taken by all the blue bays and inlets. The city is mainly built on islands and the water is so clean that you can actually go for a swim in the middle of the city.

Please enjoy all that Stockholm has to offer and take advantage of a top-notch business programme. The three days will offer us a comprehensive blend programme of commission meetings and open forums in addition to attractive social activities. If you would like to stay an additional day in Stockholm during the weekend, we are able to arrange hotel rooms\*.

### We look forward to welcoming you to Stockholm.
